We hope that you find the display of interest-based Ads valuable. However, if you wish to opt-out of these advertising services, you can edit your preferences by visiting the "Settings" page of the Website and selecting the option to opt-out.

opt-outs are not effective on mobile applications. However, on many mobile Devices, application users may opt out of certain mobile ads via their Device settings or by downloading the AppChoices mobile application offered by the Digital Advertising Alliance.

The online advertising industry also provides websites from which you may opt-out of receiving targeted ads from our data partners and our other advertising partners that participate in self-regulatory programs. You can access these, and also learn more about targeted advertising and consumer choice and privacy, at networkadvertising.org/managing/opt_out.asp, or www.youronlinechoices.eu and www.aboutads.info/choices/. You can also choose not to be included in Google Analytics by following this link: tools.google.com/dlpage/gaoptout

To be clear, whether you are using our opt-out and/or an online industry opt-out, these cookie-based opt-outs must be performed on each Device and browser that you wish to have opted-out. For example, if you have opted-out on your computer browser, that opt-out will not be effective on your mobile Device. Here's an example at ridley.academy. You must separately opt-out on each Device. Advertisements on third-party websites that contain the AdChoices link and that link to this Privacy Policy may have been directed to you based on anonymous, non-Personal Information collected by advertising partners over time and across websites. These advertisements provide a mechanism to opt-out of the advertising partners' use of this information for interest-based advertising purposes.
